

Safety Talk Tuesday

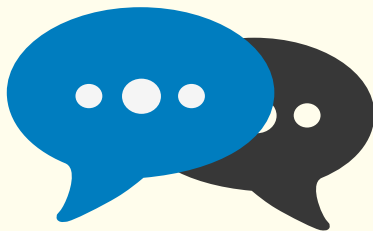

Destination: Cell Phone Use While Driving
Tips for Driving in a Technology Based World

You should not **talk** or **text** while driving! It can put other drivers as well as yourself at risk!

Use an **earpiece**, **headset**, or **Bluetooth device** when talking on the phone. That way, you can keep your hands on the steering wheel and your eyes on the road!

Texting causes drivers to take their eyes off the road. This results in a higher chance of being involved in a motor vehicle accident. **When it comes to texting, just don't do it!**
