

## Safety Talk Tuesday

Destination: Winter Driving Part 2  
Tips and Tricks for Winter Driving Safety

**Do not use** your engine killing or “Jake” brakes in poor weather. They can cause you to **lose control of your truck**

Clean headlights and equipment lights in order to **maximize the visibility** during poor weather conditions

Always **inspect your vehicle**, be sure to check your tire pressure, oil and antifreeze levels before you hit the road

**Slow down!** Most accidents occur due to drivers not adjusting their speed during harsh weather conditions. When in doubt remember to drive slowly
