

Safety Talk Tuesday

Destination: Avoiding Trips and Falls Tips and Tricks for Workplace Safety

Trips and falls are the **most common** workplace accident and cause **1-5 disabling workplace injuries**

Most **trips** are caused by **dry spill hazards** these include:

- Obstructions in walkway**
- Wires**
- Uneven flooring**
- Dust**
- Granules**
- Plastic wrap**

Most **slips** are caused by **wet spill hazards** these include:

- Water**
- Mud**
- Grease**
- Oil**
- Food**
- Blood**

Encourage your employees to **report hazards** as soon as they see them so you can remove or fix them before anyone gets hurt.
