

ARCpoint Labs offers comprehensive employment lab testing programs through comprehensive and affordable lab screening. Our customers save time and money associated with access to a large array of labs and tailored testing solutions.

[drug & alcohol testing]

ARCpoint saves you time and money by handling all of your drug & alcohol testing needs.

"Well over 50% of American companies conduct pre-employment drug screening. And an ever-growing number of these same employers now also randomly test their current employees to further reduce their liabilities and costs."

Source: Department of Labor

There are many incorrect practices that can reduce the effectiveness of a drug-free workplace program. These include focusing only on illicit drug use and ignoring alcohol abuse, an excessive dependence access to treatment for employees, terminating employees instead of providing rehabilitation services.

[COVID-19 workplace testing]

There are so many things to consider for your company's COVID-19 employee safety protocols. ARCpoint focuses on COVID-19 testing strategies to provide services tailored for the needs of employers:

- RAPID Antigen Virus Testing
- Viral PCR Testing
- Antibody Testing

[consortium management]

ARCpoint provides clients with all of the elements necessary for conducting an effective DOT & non-DOT drug testing program. These include National Collection Network, Full Randomization, Drug-Free Workplace Development, Collection Coordination, and more.

ARCpoint realizes that this challenging economic environment has made it critical that every dollar be spent wisely. At the same time, we also understand that employers do not want to sacrifice the quality of their employees and the benefits of a safe and drug-free workplace.

Our clients view us as trusted partners and look to consult with us on opportunities to save revenue while maintaining an effective program. We offer services on a national scale.

[drug-free workplace]

Alcohol and drug abuse by employees cause many expensive problems for business ranging from lost productivity, injuries, and an increase in health insurance claims.

No. of Employees	Cost of Substance Abuse	Cost Savings in a Drug-Free Workplace
25	\$28,050	\$27,488
50	\$56,100	\$54,975
100	\$112,200	\$109,950
250	\$280,500	\$274,875
500	\$561,000	\$549,750
1,000	\$1,122,000	\$1,099,500
5,000	\$5,610,000	\$5,497,500
10,000	\$11,220,000	\$10,995,000

The most effective defense against substance misuse in the workplace to improve safety and reduce costs is a reliable drug testing and rehabilitation programs. ARCpoint can customize a random drug-testing program to deter employees from coming to work unfit for duty.
